

South Carolina's Macy Crawford releases thought-provoking electropop story of "juliet"

Out October 22, 2021 via **Tippy Records**

Press Release

Macy Crawford is a fresh new talent from South Carolina whose single "**juliet**" is her debut release for **Tippy Records**. Macy has a striking voice that combines the range and grace of **Mariah Carey** and **Ariana Grande** with the soulfulness and subtlety of **Brandy**. "**juliet**" is your introduction to her forthcoming conceptual EP "**hamartia**", a thought-provoking project about the fatal flaws of some of our favourite tragic fictional heroes and heroines. It's a fascinating theme, and Macy's golden voice and her burgeoning sophisticated sense of songwriting in "**juliet**" are captivating and unique and will only make you want to hear more. We solidly believe in and support Macy's foresight and creativity, which is certain to draw in music fans looking for more depth and quality in their pop songs. "**juliet**" also happens to be co-written and produced by one of **Tippy Records'** most gifted mainstays, "**American Idol**" finalist **Robbie Rosen**.
